PROFILE SUMMARY

Enthusiastic BCA fresher with practical experience in developing full-stack applications using MERN stack and Python. Completed projects involving AI integration, database management, and responsive UI design. Quick learner with strong problem-solving skills, seeking an entry-level role to apply technical knowledge in a professional environment.

TECHNICAL SKILLS

- VS Code
- MERN Stack (MongoDB, Express.js, React.js, Node.js)
- HTML & CSS
- JavaScript
- Git & GitHub

PROJECTS

1. AI-Based Case Label and Lawyer Engaged System (MERN Stack)

- Built AI-integrated web app for legal case categorization and lawyer matching
- Developed UI using React.js and backend APIs with Node.js & Express.js
- Used MongoDB for case and lawyer data management
- Github : AI-Based-Case-Posting-and-Lawyer-Engaged-System

2. Food Donation Management System (MERN Stack Final Year Project)

- Developed full-stack platform for managing food donation requests
- Designed responsive UI and implemented backend APIs
- Improved performance and handled data using MongoDB
- Github : food-donation-system
